# HFS15TI Series

Flange Spreader Tool

## Features:

- Integrated wedge concept: friction-free, smooth, parallel wedge movement eliminates flange damage and spreading arm failure.
- Unique interlocking wedge design: no first step bending and risk of slipping out of joint.
- Requires very small access gap of 6 mm (.24 in).
- Few moving parts means high durability and low maintenance.

## HFS15TI TECHNICAL DATA

Spreader Capacity:	Min. Spread : 32 mm
	Max. Spread : 81 mm
Max. Pressure:	700 bar
Oil Required:	79 cc
Max Output:	15.60 tons / 138.9 Kn
Height:	445 mm
Weight:	9.0 kgs

## KIT CONTENTS

- 1 x HFS15TI Tool
- 1 x Instruction Manual
- 1 x Robust moulded carry case

## Accessories:

- Safety Block
- Plastic carrying case (Case sold separately)
