MFS9T Series

Flange Spreader Tool

Features:

- Integrated wedge concept: friction-free, smooth, parallel wedge movement eliminates flange damage and spreading arm failure.
- Unique interlocking wedge design: no first step bending and risk of slipping out of joint.
- Requires very small access gap of 6 mm (.24 in).
- Few moving parts means high durability and low maintenance.

MFS9T TECHNICAL DATA

Spreader Capacity:	Min. Spread : 32 mm
	Max. Spread : 81 mm
Max Output:	9.00 tons / 80.1 kN
Height:	283 mm
Weight:	6.0 kgs

KIT CONTENTS

- 1 x MFS9T Tool
- 1 x Instruction Manual
- 1 x Robust moulded carry case

Accessories:

- Safety Block
- Wrench (22 mm)
- Plastic carrying case (Case sold separately)
